

Cascade Sierra Solutions and Shorepower Technologies Idle Reduction Rebate Program

Through the American Recovery and Reinvestment Act (ARRA) and the
U.S. Department of Energy

Indel B Sleeping Well Arctic 2000 Red Dot R-1200-0P

Cascade Sierra Solutions has partnered with Shorepower Technologies (SPT) to administer an idle reduction rebate program for the US Dept of Energy. The STEP (Shorepower Truck Electrification Project) will offer incentives up to 20% of the installed equipment price or a maximum amount by category for equipment that can hook up to the power grid or operate on battery power to eliminate engine idling.

Rebates are administered via an on-line application process at the CSS web site: www.cascadesierrasolutions.org. Click on the GRANTS tab at the top of the home page, scroll down to the Nation-wide Shorepower Truck Electrification Project (STEP) link.

Selecting that link will take applicants to a page describing the rebate program:
https://csswebform.org/WebForm/TSE_home.aspx

From there, you can select a link to the list of eligible manufacturers and models:
http://csswebform.org/WebForm/Supplier_list.aspx

The web site that has been set up to communicate information about the STEP rebate program and truck stop infrastructure build out is: www.the-step-project.org

Rebate requests will be accepted between February 2011 and March 31, 2013.

Rebate must be approved by CSS prior to installation.
